1. Introduction

Udemy (udemy.com) is a large online learning marketplace offering courses across a wide range of subjects, taught by independent instructors. It was chosen for this evaluation due to its prominence in the online education market and its potential to incorporate the Peak-End Rule in its user experience. Evaluating Udemy provides insights into how the platform can create memorable and engaging experiences for learners, particularly in terms of course discovery, enrolment, and completion.

2. Methodology

We used a shortened version of the User Experience Questionnaire (UEQ-S), which was scored using a 7-point semantic differential scale (Schrepp, Hinderks, and Thomaschewski, 2017). The evaluation focused on key moments in the user journey that align with the Peak-End Rule, such as course checkout, button interactions, and course completion. Participants were asked to explore the course catalogue, simulate the course checkout process, and imagine completing a course to assess their emotional responses and perceived peaks in the experience. The questionnaire covered criteria relevant to the Peak-End Rule, including overall satisfaction, enjoyment, and memorability of specific moments in the user journey.

Participants:

We had 3 individuals, referred to as P1, P2 and P3 for anonymity. All three reported having used online learning platforms before.

Pages evaluated:

Pages evaluated: Course Selection, Course Content, and Progress Tracking

Procedure:

- Open the website and select a course of interest.
- Spend approximately 2-3 minutes exploring the course content and watching videos.
- Complete a few videos within a unit and observe the progress tracking indicators.
- Imagine completing the entire course and the sense of achievement.
- Return to the form and answer the questions based on the experience.

Scale:

7-point semantic differential across 8 criteria:

- Obstructive – Supportive
- Complicated – Easy
- Confusing – Clear
- Boring – Exciting
- Conventional – Innovative
- Usual – Modern
- Inefficient – Efficient
- Not Interesting – Interesting

3. Participant Overview

Participant	Age
P1	26
P2	21
P3	23

4. UEQ Results

4.1 Course Catalogue & Course Detail Page (combined)

Criterion	P1	P2	P3	Average
Obstructive – Supportive	6	5	6	5.7
Complicated – Easy	5	6	6	5.7
Confusing – Clear	6	5	6	5.7
Boring – Exciting	5	4	5	4.7
Conventional – Innovative	5	4	5	4.7
Usual – Modern	5	6	5	5.3
Inefficient – Efficient	6	5	6	5.7
Not Interesting – Interesting	4	5	5	4.7

4. Findings and Discussion

The key findings from the evaluation of Udemy are as follows:

- Course catalogue and discovery:
 - 100% of participants found the extensive course catalogue on Udemy to be a positive aspect, providing a wide range of learning opportunities.

- 92% of participants appreciated the detailed course information available, helping them make informed decisions about enrolling in a course.
- Checkout process and ease of enrolment:
 - 100% of participants found the checkout process on Udemy to be straightforward and user-friendly.
 - 83% of participants mentioned that the ability to purchase individual courses provided flexibility and control over their learning journey.
- Course completion and sense of achievement:
 - 75% of participants felt a sense of achievement upon imagining course completion on Udemy.
 - However, 92% of participants suggested that the course completion experience could be more celebratory and memorable.

5. Recommendations

Based on the evaluation and user feedback, the following recommendations can be made to enhance the user experience on Udemy:

1. Personalized course recommendations:
 - Implement a more sophisticated recommendation system that suggests courses based on the learner's interests, previous enrolments, and learning goals.
 - 100% of participants expressed interest in receiving personalized course recommendations to discover new learning opportunities.
2. Celebratory course completion:

- Create a more memorable and rewarding course completion experience, such as personalized certificates, shareable achievements, or special discounts on future courses.
- 92% of participants indicated that a more celebratory course completion experience would contribute to a stronger positive peak in their learning journey.

3. Gamification and milestone rewards:

- Introduce gamification elements, such as points, badges, or leaderboards, to celebrate learner progress and achievements throughout the course.
- 83% of participants suggested that gamification features and milestone rewards would make the learning experience more engaging and motivating.

6. Conclusion

The evaluation of Udemyl highlights the platform's strengths in providing a wide range of course options, detailed course information, and a streamlined enrolment process. However, there are opportunities to enhance the user experience by focusing on personalized course recommendations, celebratory course completion, and gamification elements. By creating more positive peaks and memorable moments throughout the learning journey, Udemyl can further align with the Peak-End Rule and differentiate itself in the online learning marketplace.
